

# Health, Safety and Welfare Policy

## General Policy

..... (1)

These are the principles we apply to achieve our stated intentions. We want to provide, so far as is reasonably practicable, a safe and healthy environment for staff, those in our care, visitors, contractors and others affected by our activities.

Therefore, whilst the day to day responsibility of managing such related issues belongs to the most senior person on duty, the ultimate responsibility is that of:

..... (2)

Principles adopted to achieve our intentions include:

- A safe working environment
- Safe ways of working
- Systematic assessment and control of genuine risks
- Maintaining and revising relevant written procedures
- Ensuring staff understand those procedures
- Providing sufficient information, instruction and training
- Actively involving staff in all the above
